

ULTRADESK®

INNOVATOR

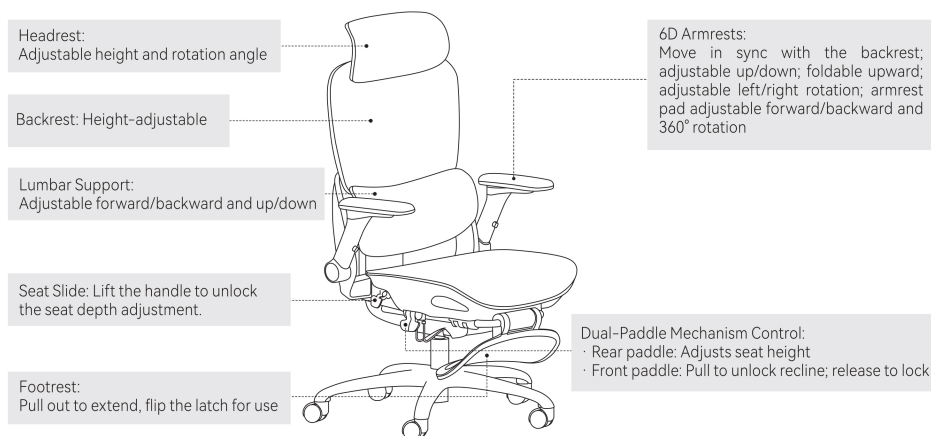

Assembly instructions

1 	2 	3 
Press the five casters firmly into the base.	Insert the gas lift cylinder into the center hole of the base.	First, remove the pre-installed screws from the footrest.
4 	5 	6 
Insert the footrest tube into the corresponding slots on the seat cushion, then secure it using the footrest screws removed in the previous step.	Attach the backrest to the mechanism using three T6-M8x20 screws . Then, remove the black rubber stopper from the sliding handle area.	Carefully align the assembled seat unit with the gas lift cylinder and lower it into place.
7 	8 	9 
Attach the left and right armrests to the backrest using two T3-M8x20 screws on each side. Ensure the armrests are oriented correctly (left and right).	Align the headrest with the slots on the backrest and insert it to secure.	Assembly is complete.

Functions

Installation instructions

- Before installation, please read all the safety instructions below carefully and master the installation steps and methods.
- Count the parts, check if all the parts are included.
- To avoid injury, it is recommended that you wear gloves during installation.
- Please choose a spacious and clean flat floor for installation, and then lay the paper sleeves on the ground, to avoid collision between components and the ground.
- To avoid using the wrong screws, please fix all the screws before tightening them.
- Please note that once the gas lift is installed, it is difficult to remove.
If you need to disassemble the chair, please gently tap the head of the gas lift with a rubber-tipped hammer several times, and then remove the base. After that, continue to gently tap the base, using the principle of vibration to make the gas lift fall off. Please be careful not to get hurt as tools are needed to do this.
(Damage and accidents caused by this operation do not fall within the scope of product warranty, please operate carefully.)

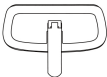

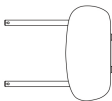

Precautions for use

- Please note that this product is designed for one person- one chair is for one person only.
- For the use of product features, please follow the instructions in the product features section.
- Make sure all screws and components are locked tightly before using this product and check it at least once every 3 months.
- Please use the chair on a flat floor, avoid wet surfaces, avoid placing the product too close to a fire source, avoid long time in direct sunlight.
- Don't use sharp or hooked objects to scrape the chair and do not get it close to a fire source.
- It is not allowed for a child under the age of 5 years to sit on the chair alone.
- Please don't sit on the armrests, stand on the chair or use it as a ladder or footsteps, such use can be dangerous.
- To avoid any harm to your fingers, don't insert them into the mechanism while sitting.
- For your safety, no disassembly of the gas lift is allowed.
